

More about working with the ELATT Group...

A leading charity and social enterprise in East London, the award-winning ELATT Group provides specialist training and business support and has forged a national reputation for quality, innovation and getting results. In this period of rapid change and opportunity both in the voluntary sector and wider economy, we have developed a diverse and sustainable funding base supported by a highly committed staff team. We have a direct Skills Funding Agency mainstream contract, a growing Apprenticeships offer, and thriving grassroots community support projects. And of course, our burgeoning enterprise concerns ELATT Design and the ELATT Web Academy.

We can offer you 30 days annual leave per year, a group pension plan & the freedom to make the decisions & choices that impact most on your role and your students – as well as the opportunity to develop a full set of skills essential to flourishing in the Third Sector, from project development and fundraising to implementation.
